HP COMPAQ 6535S NOTEBOOK PC

FINANCIALLY SAVVY.
Affordable, practical, 14.1-inch diagonal display, AMD processors

HP recommends Windows Vista® Business

AMD Business Class solutions and an impressive combination of mobile office features make the HP Compaq 6535s Notebook PC an affordable productivity tool. This sleek notebook is newly designed and equipped with enhanced security and excellent battery life making it one smart investment.

Technology to get the job done

With the 14.1-inch diagonal widescreen display you choose between an anti-glare display or an HP BrightView display. You also choose what processor is right for you: AMD Turion™ X2 Ultra Dual-Core Processor,[2] AMD Turion™ X2 Dual-Core Processor, AMD Athlon™ X2 Dual-Core Processor, or AMD Sempron™ Processor. The optional DVD+/-RW SuperMulti DL LightScribe Drive[3] makes your storage media stand-out with custom labels that you can burn directly to your disc. Plus stay connected where you need to work with Wi-Fi Certified WLAN[4] and integrated Bluetooth® wireless technologies.

HP Professional Innovations help you focus on your business

Built to protect. An array of multi-layered, customizable security solutions help defend your network, your applications, and your data. Drive Encryption for HP ProtectTools encodes all information on your hard drive so that your sensitive information is unreadable to an unauthorized person if your notebook is lost or stolen.

Built to simplify. Experience web conferencing and other multi-media content with no additional hardware to buy or carry.[4,9] The new HP SoftPaq Download Manager provides a simple, powerful way to download software updates to your PC environment in as few as three steps

Built to last. HP 3D DriveGuard, using a three-axis accelerometer which detects any sudden movement and initiates protective action, helps protect your notebook's hard drive against impact, bumps, or drops so your critical information is easily protected while you are on the move. HP Business Notebooks undergo over 95,000 hours of rigorous quality testing to ensure your notebook is ready to go the distance.

HP COMPAQ 6535S NOTEBOOK PC

HP recommends Windows Vista® Business

1. Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.mspx and www.microsoft.com/windowsvista/getready/capable.mspx for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor.
2. This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of AMD Turion 64 X2 technology. Dual-core processing available with AMD Turion 64 X2 technology is recent technology innovation designed to improve performance of this system. Given the wide range of software applications available, performance of a system including a 64-bit operating system and a dual-core processor will vary. This notebook pc does not support the AMD Turion X2 Ultra Dual Core processor over-clocking feature.
3. Do not copy copy-right protected materials. Intended for creation and storage of your original material and other lawful uses. Double Layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided – Version 1.0 media.
4. WiFi access point and Internet service required and not included. Availability of public wireless access points limited. Wireless, internet, and VoIP require separately purchased service contract.
5. The specifications for the 802.11n WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11n WLAN devices.
6. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8 GB (for XP) and 10 GB (for Vista) of system disk is reserved for the system recovery software.
7. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by programs.
8. HP Fast Charge recharges your primary battery up to 90% within 90 minutes when the system is off.
9. Sold separately or purchased as an optional feature.
10. 60 day trial period. Internet access required to receive updates. First update included. Subscription required for updates thereafter. This McAfee Total Protection for Small Business software is licensed to you by McAfee under the terms of the McAfee end user license agreement which can be read at www.mcafee.com
11. Dual Channel is only supported when the system is configured with DDR2 symmetric memory (ie: 2x256).
12. 32-bit operating systems can only address ~3.2 GB. To fully utilizing memory configurations of 4GB or more, a 64-bit operating system is required.
13. This Windows Vista® Business licensed product will ship to you with Genuine Windows XP Professional custom installed on the hard drive. Customers buying these downgraded systems are expected to purchase at least 25 licenses annually.
