

Intelligroup Joins HP Quality Management Ecosystem Program

Princeton, NJ, December 10, 2008 Intelligroup Inc., today announced that it has joined HP's Quality Management Ecosystem program. As an HP Gold Business Partner, Intelligroup works closely with HP Software to extend the offerings around Quality Center 10.0. Intelligroup has developed a solution offering with HP that enables customers to upgrade while optimizing their testing activities, reducing costs and improving quality. This solution is built utilizing Intelligroup's SAP upgrade assessment and execution tool, Uptimizer, and HP Quality Center. Intelligroup is also collaborating with HP to deliver automated testing solutions to customers that have implemented Oracle applications.

"Our proprietary tool, Uptimizer, allows for automated impact analysis, risk based testing coverage definition, prioritization of testing activities, and remediation of impact areas, combined with a global delivery model provides cost savings of as much as 40 percent compared to traditional/manual ways of upgrading and testing," said Deepak Bhattar, Director, Testing and GRC Practice.. "Intelligroup is a Gold Partner of HP Software, and we Resell as well as implement the Testing products of HP Software over the application life cycle."

Intelligroup helps customers establish Testing Centers of Excellence, formulate testing strategies and implement testing automation frameworks and solutions. Intelligroup's differentiators include an understanding of business processes, testing accelerators, strong ERP knowledge as well as deep industry knowledge. For example, in the area of Life Sciences, Intelligroup helps customers with systems validation and testing in a regulated environment.

"Organizations need to take a smart approach to managing the application lifecycle to reduce cost and risk," said Mark Sarbiewski, senior director of products, Software and Solutions, HP. "Intelligroup's services complement HP Quality Center to help customers modernize their applications to better meet the needs of the business now and in the future."

Intelligroup's testing customers include KLA Tencor, Cox Media, Varian Medical, among others.

About Intelligroup, Inc.

Intelligroup is an ERP-focused enterprise applications systems integrator providing consulting, implementation, testing, application management and other IT services for global corporations. The Company possesses deep expertise and proprietary tools in industry-specific enterprise solutions and has been recognized by clients, partners including SAP and Oracle and IT industry analysts for consistently exceeding expectations.
