HP Jetdirect ew2500 Wireless Print Server

Overview

Enjoy the convenience of sharing a printer over a wireless network, without compromising security or efficiency with the HP Jetdirect ew2500 Wireless Print Server. Along with Wi-Fi certification and 802.11b/g wireless capability, the print server supports Fast Ethernet wired networking for versatile printer sharing. Simple to set up and configure to a wireless or wired networked environment, the HP Jetdirect ew2500 Wireless Print Server can be remotely managed with solutions such as HP Web Jetadmin and HP Easy Printer Care. Each offers broad compatibility with HP printers and is backed by legendary HP reliability.

The print server's enhanced security features allow users to integrate wireless printing into the office without putting sensitive materials at risk. It can also increase efficiency by enabling shared network-capable HP printers with Hi-Speed USB ports and multi-function products (MFPs).

Key features and benefits

- Improve productivity and easily share printing, copying, scanning and faxing resources over a network.

- Seamlessly integrate and improve performance with a broad range of HP monochrome, color and multifunction printers.

- Confidently handle sensitive information with IPv4, IPv6 compatible, SNMPv3, WPA2, & AES security enhancements.

- Efficiently and simply integrate into existing imaging and printing systems with 10/100Base-TX Fast Ethernet wired networking, Hi-Speed USB, and status lights and test button for simple installation and monitoring.

- Easily manage complex print jobs with advanced network configuration and HP print management tools, including HP Universal Print Driver, HP Web Jetadmin and HP Easy Printer Care, and expand business capabilities with extensive access to market-leading third-party management solutions.

- HP Embedded Web Server offers remote, one-to-one network configuration through an intuitive web browser interface.

Pricing

HP Jetdirect ew2500 Wireless Print Server: $199[1]
