SHOW

HP 8" Smart Wi-Fi Display

The HP 8" Smart Wi-Fi Display is a full-featured wireless digital picture frame that lets you quickly and easily access digital content on the frame, on the Internet or on a home server or PC. It lets you enjoy and share photos from online photo sharing sites, access popular social networking sites, listen to Internet radio and receive information such as headline news and weather forecasts. The HP Smart Wi-Fi Display is a smart choice for personal use or as a gift to your loved ones.

- **Digital Picture Frame functions**

A feature rich digital picture frame lets you browse through your photo collection online or offline. Now, you can share and receive pictures directly to your frame from family and friends. You can also view slideshows of your pictures or video while playing your favorite music.

- **Built-in wireless connectivity**

- Lets you connect to the Internet and your home network.
- Let's you view your photo collection or stream video and music from your home media server or PC.

- **Online photo sharing sites and social website access**

- Enjoy and share photo albums from your favorite photo sharing sites such as Snapfish, Photobucket, Flickr, and Picasa.
- Enjoy and share photo albums from your favorite social networking sites such as Facebook and Myspace...
- Get notified real-time when friends & families update their albums or new photos are available.

- **Internet gadget and Internet radio support**

- Get up-to-date headline news, weather forecast, sports, business entertainment news, etc.
- At the touch of a finger, listen to your favorite programs available through preset Internet radio stations and Podcasts.

- **Customizable user interface**

Easy one-time setup on a PC allows you to pick and choose exactly what service to receive and how the user interface looks from various skins/backgrounds. You can also create your own play list for photos, video and music from your collection.

- **MMS photos**

Receive photos taken with a cellular phone directly to the frame via MMS

- **PictBridge support**

Print your favorite photos on a PictBridge-compatible printer directly from the Smart Display – without a PC!

- **Parental control**

Gives you full control on the SmartDisplay to make sure only age-appropriate content is accessible.
