TOM NORTON
Global Practice Director, Microsoft and Client Infrastructure Consulting Services
HP Enterprise Business

HEWLETT-PACKARD COMPANY

Tom Norton is worldwide Microsoft and Client Infrastructure Services Practice Lead for the Technology Services Infrastructure Consulting business at HP.

Prior to starting this role in 2007, Norton was worldwide Windows services portfolio manager at HP, where he oversaw the expansion of the infrastructure consulting portfolio to include desktop lifecycle services, Windows systems management and server virtualization. This role also provided him the opportunity to work with some of HP's most important customers, including Sony, Unilever, Barclays, Royal Bank of Scotland and 3M.

Prior to joining HP, Norton held a regional IT director position for United Parcel Service, supporting an eight-state area with a 600 server data center, a regional service desk and an end-user population of approximately 22,000 users.
