

ROBIN PUROHIT

Vice President and General Manager, Software Products, HP Software  
HP Enterprise Business

HEWLETT-PACKARD COMPANY

Robin Purohit serves as vice president and general manager, Software Products within HP Software business. He is responsible for design, development, marketing and go-to-market strategy for Business Technology Optimization (BTO) applications and operations portfolios, as well as Information Management (IM) products.

Most recently, Purohit was vice president and general manager of the HP Software & Solutions IM group. Before joining HP via the Mercury Interactive acquisition in 2006, Purohit served as vice president of Products at Mercury, where he led the application management, information technology infrastructure library (ITIL) and IT governance product teams. With the Mercury acquisition, Purohit served as the Mercury leader for product and solution integration with HP Software.

Earlier, Purohit held a number of executive positions at Veritas Software in product management and strategy for storage software and utility computing during a six-year period. Prior to Veritas, he was a product line manager for storage networking at 3Com, where he was charged with developing business plans for the company's entry into the storage networking industry.

Purohit is a returning HP veteran, having spent three years as a research and development manager and strategic planning leader for high-performance computing and input/output strategy for the Unix group in the HP System Technology Group during the mid-1990s.

Purohit holds a Bachelor of Science in electrical engineering and physics from the co-op program at Waterloo University.
