

Rajesh Radhakrishnan
Vice President, Applications Portfolio & Engineering
HP Enterprise Services

HEWLETT-PACKARD COMPANY

Rajesh Radhakrishnan is vice president of Applications Portfolio and Engineering for HP Enterprise Services, where he is responsible for determining HP's strategy for developing, deploying, transforming and managing custom, legacy and enterprise applications.

As part of his role, Radhakrishnan oversees service definition, service packaging, engineering, and go-to-market strategy and execution. He also drives HP's investment strategy for application services and engagement across multiple HP business units to create seamless innovative solutions.

Radhakrishnan has more than 15 years of experience in leading key businesses within HP as well as at Mercury Interactive, Veritas and Oracle. Most recently, he led the testing products group at Mercury. Radhakrishnan has a passion for driving a solution portfolio end to end –from sales to delivery –and zooming in on the key factors that can transform or grow that business.

Radhakrishnan has a Bachelor of Science in computer science from IIT Delhi and a Master of Science in computer science from Brown University.
