

JOSEPH GEORGE

Client Virtualization Business Lead, Infrastructure Software and Blades,
HP Enterprise Business

HEWLETT-PACKARD COMPANY

Joseph George is the client virtualization business lead for the Infrastructure Software and Blades organization at HP. He is responsible for driving HP leadership in this evolving space.

Prior to this role, George was an integral part of numerous key HP infrastructure software initiatives, including the Insight Control software suite and Integrated Lights-Out (iLO) remote management.

George has degrees in engineering and business, and has been involved with enterprise software for more than 10 years. Prior to joining HP, he held strategic roles at Halliburton and BMC Software.
