GARY THOME
Chief Architect, Infrastructure Software and Blades
HP Enterprise Business

HEWLETT-PACKARD COMPANY

Gary Thome is vice president of strategy for Infrastructure Software and Blades organization in the Enterprise Servers, Storage and Networking Business at HP. As the chief architect and strategist, he is responsible for both tactical and strategic product direction for HP BladeSystem and Insight Management worldwide.

Thome has been instrumental in the development of the highly successful BladeSystem c-class product line. During his 20 years of experience, he has also contributed for industry standard servers, desktop computers and professional workstations.

Thome has a degree in electrical engineering from the University of Texas, Austin and is the recipient of 48 patents.
