

Massimo Pellegrino

Vice President, Enterprise Information Solutions,
Software, HP Enterprise Business
Hewlett-Packard Company

Massimo Pellegrino leads the Enterprise Information Solutions (EIS) division in HP Software. The organization is focused on providing HP clients with enterprise information and intelligence solutions to solve some of their most pressing business problems.

Pellegrino is an inspired leader who has both the credentials and passion required for building an empowered organization focused on establishing HP as the undisputed leader in the information management space. He has two decades of management experience in IT and professional services and is fluent in both English and Spanish.

Previously, Pellegrino held the position of vice president and general manager of Business Intelligence Solutions (BIS) in EMEA (Europe, the Middle East and Africa) where he directed HP's business intelligence effort with great success.

Prior to joining HP, he held the position of area vice president for Southern Europe, Middle East and Africa at NCR/Teradata where he developed data warehousing growth strategies by country for the telecommunications, financial services, retail and manufacturing industries.

Pellegrino holds a degree from Padua University. He is based in Milan, Italy.
