Patrick Harr

Vice President, Enterprise Cloud Solutions,
HP Enterprise Business
Hewlett-Packard Company

Patrick Harr is vice president of Enterprise Cloud Solutions for HP Enterprise Business. In this role he is responsible for driving the company's cloud strategy and overseeing its cloud portfolio.

Prior to joining HP, Harr had executive leadership roles for such companies as Preventsys, McData, Sanera, CacheFlow and Novell. He was the founder and chief executive officer of Nirvanix, a leading enterprise cloud storage start-up.

Most recently, Harr held an executive position with VMware running sales and marketing for desktop solutions.
