# Srinivas (Srini) Koushik

## Vice President, Strategic Enterprise Services, Worldwide Applications and Business Services Hewlett-Packard Company

Srini Koushik is vice president for the Worldwide Strategic Enterprise Services organization, part of HP Enterprise Services. In this role, he leads HP's global consulting and systems integration practices around transformation consulting, cloud computing, mobile computing, information management and analytics.

Koushik is an innovative and dynamic team leader, comfortable with complexity and the management of process and technology at the executive and board levels. He possesses a diverse skill range and is able to rapidly adapt, mobilize, motivate and sustain teams, as well as drive focus and deliver results to time and cost.

Prior to his role at HP, Koushik was senior vice president and chief information officer at Nationwide Insurance – a Fortune 100 financial services company. Koushik also was vice president and worldwide architecture practice leader at IBM. He was appointed as an IBM Distinguished Engineer in 1998 and elected to the IBM Academy of Technology in 1999.

Koushik has had a highly decorated career that includes being named an Elite 8 chief information officer by Insurance and Technology, a Top 25 chief technology officer by *Infoworld* in 2004, and one of the Top 10 All Stars in the Financial Services Industry by TechDecisions in 2007. He is also an Open Group Distinguished Certified Architecture Profession Leader.

Koushik holds a bachelor's degree in physics from the University of Madras, a master's degree in computer science from the University of Bombay, a master's degree in business administration from The Ohio State University and several executive education courses from MIT's Sloan School of Management and Duke University.
